Subject: Follow Up to Phone Call, Operator Name, Quality Building Stone, Italian Tan Quarry,  
S/007/0038, Carbon County, Utah

Dear Ms. Miller:

As you, Wayne Western, and I discussed by telephone on April 12, 2011, there is additional reclamation work that needs to be completed at the Italian Tan quarry before the Division can release part of the reclamation surety. The report for Wayne Western's March 30, 2011, inspection discusses work that needs to be done on the roads and to repair and control erosion.

Wayne Western will meet with you or your representative on site to discuss the work that needs to be done and if possible will be on site when the work is being done to ensure the Division's concerns are met.

Once the reclamation work has been approved then the Division could proceed with a partial bond release. To apply for bond release please use the Division bond release form that can be download from [https://fs.ogm.utah.gov/pub/mines/minerals\\_related/forms/MR-SITE.pdf](https://fs.ogm.utah.gov/pub/mines/minerals_related/forms/MR-SITE.pdf). Money posted as reclamation surety for Italian Tan could then be applied to another mine, such as the Snow White or Red Chief quarry. The Division would need a new Notice of Intention to Commence Small Mining Operations before mining could commence on either of these sites.

Please continue to stay in contact with us as you prepare to perform this work. If you have any questions please call either Wayne Western at 801 538-5263 or me at 801 538-5261.

Sincerely,

Paul B. Baker  
Minerals Program Manager
